SUPPORT REPORT FOR CHILDREN WITH DISABILITIES

Date: 10th June 2025

1. Introduction

DVC Foundation through a sister agency AWES Secritariate continues to support children with disabilities by providing humanitarian aid, assistive devices, and social engagement activities. This report summarizes the activities conducted, the support provided, and the observed impact on the children's well-being and inclusion.

2. Objectives

• Provide essential food and humanitarian aid to children with disabilities.

• Improve mobility and independence through wheelchairs and assistive devices.

• Foster social inclusion and engagement through recreational and skill-building activities.

3. Activities and Support Provided

Activity Type	Details	Number of Beneficiaries
Food and Humanitarian Aid	Distribution of food packages including cereals, grains, cooking oil, and other necessities.	300
Wheelchair & Assistive Device Donation	Provision of wheelchairs, walking aids, and guidance on usage and maintenance.	100
Social & Recreational Activities	Group games, arts, storytelling, and skill-based activities promoting interaction and confidence.	50

4. Impact

• Improved access to nutritious food and basic necessities, enhancing health and well-being.

• Increased mobility and independence for children through wheelchairs and walking aids.

• Enhanced social inclusion, confidence, and participation in group activities.

• Strengthened relationships with caregivers and the community.

5. Challenges

• Limited resources restricted the number of children reached.

• Some beneficiaries live in remote areas, making follow-up support challenging.

6. Recommendations

• Expand outreach to reach more children with disabilities, especially in remote communities.

• Increase provision of mobility aids and assistive devices.

• Continue organizing social, recreational, and skill-building activities to promote inclusion.

7. Conclusion

The activities conducted by DVC Foundation have significantly supported children with disabilities, improving their access to food, mobility, and social participation. Continued interventions are essential to sustain and expand these benefits.
